

Coin Vending Machine

Model: NCD-1EF

Coin Vending Machines are automatic machines that dispense coins against receipt of Bank Notes. These are widely used for exchange of Bank Notes to coins by the public and also called as Bank Note to Coin Changers or Coin Change Machines.

Features:

- Bank Note Validator to accept all Bank Note denominations with an acceptance speed of 3 Seconds/Note. Notes can be inserted in any direction. Configurable for most of the currencies of the world. Model NCD-1E is a wall mountable model.
- The Coin Vending Machine dispenses coins as per the value of the accepted note.
- Capacity to hold up to 750 coins of single denomination.
- Large LCD display is provided to display Note Acceptance, Change tendering process and No Stock indications to the users.
- Supports coin dimension range from 17 mm to 26 mm in diameter and 1.2mm to 3 mm in thickness. Option to vend metal tokens instead of coins is also configurable.
- High Speed Coin dispensing of 4 Coins/Second.
- The Coin denomination to be dispensed is settable on site as required in the settings menu.
- Option is also available to Enable or Disable acceptance of Bank Note denominations in the Settings Menu. The cash box holds about 500 notes.
- Electronic Audit Function to view the transaction reports of notes received in the machine and total coins dispensed with closing balance.
- Powder coated metal cabinet with vinyl branding sticker.
- Tamper proof secure locks.
- Dimensions: 700 mm (H) X 500 mm (W) X 400 mm (D) – 50 Kgs.
- Power Supply : 230V, 50Hz, 40W
