

# Condom Box Vending Machine CBVM-2C

**Condom Box Vending Machine is an Automatic Self-Service Vending Machine used for dispensing Condom Box against acceptance of Coins. The Machine is configured to dispense two types of Condom Box through special box dispenser motors.**

## **Operation:**

- Selection buttons are available for each product selection.
- Upon selection of the product, Machine displays the selected product value and prompts the user to insert Coins one by one into the coin validator.
- Dispenses the selected condom box upon receipt of the exact value by any combination of Coins.
- Audible Buzzer provides beep sound alerts during transactions and a “Thank You” message is displayed at the end of each successful transaction.

## **Transaction Unit:**

- Coin Validator to accept coins of all denomination with an acceptance speed of 3 Coins/Second.
- Electronic Coin Validator accepts the coins through a single slot entry for multi-coin operation.
- This machine is configured with 2 Product selections in 2 vertical chute arrangements with motorized box dispenser mechanism.
- Machine does not accept excess coins over the pre-set value of the Condom box.
- The Standard Single Condom Box (3sachet Pack) holding capacity is 30 - 35 Numbers in this machine. The capacity depends on the size of the product.
- Configured with a six digit counter for sales auditing of number of Condom Box sold by machine.
