

Self-Service Cheque Deposit Kiosk

Self Service Cheque Deposit Kiosk is designed for Automation of Cheque Collection operations and issuing receipts to the users. This product is engineered to work 24 x 7 in Bank premises, Cheque Payment Collection Centres of Telecom Companies, Insurance Premium Collection Centres, Building and Construction Companies and other applications requiring automatic cheque collections and printing of acknowledgements.

Need For Check Deposit Automation:

- Large number of customers walk-in for depositing cheques
- Customers hesitate to deposit cheques in drop boxes due to absence of acknowledgement receipt.
- Reserve Bank of India (RBI) mandate requires cheque receipt acknowledgement as mandatory
- Long queues lead to dissatisfied customers
- Minimise manpower costs for Cheque Collection Operation.
- Convenience to customer, can deposit cheque 24 x 7 and collect receipt

Features:**Processing Unit:**

- Intel Mother Board with Atom processor D2500 (Dual Core @ 1.86 GHZ)
- Windows 7 operating system Licence
- Capacitive Touch Screen Monitor for ease of data entry for customer details.
- MICR reader CMC7/E13B compatible for reading cheques.
- Scanner for scanning the inserted cheque image in black & white.
- Cheque Collection Application Software with receipt printing and report generation functions.
- Collection Capacity up to 800 cheques.
- High Speed 3 Inch Thermal printer with Auto-cutter to print receipts to the users

Design Specifications:

- Powder Coated Metal Enclosure (MS – 1.6mm)
- Fitted with cooling fans for heat dissipation
- Compact UPS is installed for power back up
- Front door opening with secure anti-drill vandal proof lock and tubular keys

Software Features:

- The built-in cheque deposit software is capable of accepting cheques offline only
- Generates Reports of Instruments collected
- Option to export to Excel format for printing reports
- Administrator can add/delete/modify any account head
- Administrator can configure specific menus to be used by the branch
- Check Collection Data can be downloaded on a USB pen drive
- In case of any discrepancy, the said transaction of that date can be checked / verified either by entering the transaction code or the Account Number of that customer

Receipt Generation (Customisation is optional)

The following information is printed on the receipt - Standard

- | | |
|------------------------------|---|
| • Bank Name | Constant |
| • Location of Machine | Constant |
| • Date & Time | System Generated (RTC) |
| • Transaction Code | System Generated |
| • Account No. | Entered by the user |
| • Type of Account | Entered by the user |
| • Amount | Entered by the user |
| • Deposited Cheque Bank Name | Read from MICR data base & printed on receipt |
| • Deposited Cheque Branch | Read from MICR code & printed on receipt |
| • Deposited Cheque MICR No. | Read from deposited Cheque & printed on receipt |

MIS Reports:

Generates Bank Name & Location of machine on each page

The following Reports are generated

- 1) Home Branch Cheque
- 2) Same Bank-Local Cheque
- 3) Same Bank-Out Station Cheque
- 4) Other Bank-Local Cheque
- 5) Other Bank-Out Station Cheque
- 6) Summary of Cheques
- 7) Day Wise Summary of Cheques
- 8) Account Wise Summary of Cheques

The Reports generated are in the following format

Date	Account Type	Account No.	MICR No.	Amount
------	--------------	-------------	----------	--------

The software provides breakup of each type of account head, number of cheques collected and total amount of that particular account head.

Note :

- For better clarity, reports are required to be exported to Excel format and then printed on normal Laser Jet or Dot Matrix Printer
- Reports can be viewed on LCD Touch Screen monitor also using password
- Receipt Printer can only print acknowledgement receipts to the customers.
